SUMMARY

Fifth-semester Computer Science student specializing in Software Engineering, with experience as a Software Laboratory Assistant and involvement in HIMTI and BNCC activities. Completed two terms as a Scholarship Mentor, participated in hackathons, and earned relevant certifications. Eager to learn, adaptable, and collaborative, focused on contributing and growing in software engineering projects.

EDUCATION

BINUS University Sep 2023 - Present
Computer Science Student *GPA: 3.79*

BPK Penabur Gading Serpong July 2020 - May 2023
High School Diploma, Science Major

EXPERIENCE

Part-time Software Laboratory Assistant | Bina Nusantara University Feb 2025 - Present

- Taught 6+ university lab courses, including Machine Learning, Data Structures, and NLP.
- Designed exam cases, conducted grading, and served as an exam proctor.

Scholarship Tutor | Bina Nusantara University Jan 2025 - July 2025

- Delivered tutoring sessions in Scientific Computing using Python.

Scholarship Mentor | Bina Nusantara University Sep 2024 - Jan 2025

- Supervised 4 mentees by guiding them through academic and personal development.

Web Development Division | HIMTI Binus University Mar 2025 - Present

- Collaborated with a development team to design and implement a new feature for HIMTI's website.

Active Member | Ureeka Binus University Mar 2024 - Present

- Completed a web development training program where I learned to build web applications using Next.js.

Publication and Marketing Division | HIMTI Binus University Mar 2024 - Mar 2025

- Edited and prepared articles for publication on HIMTI's official platforms.

Human Resource Department | Bina Nusantara Computer Club Dec 2023 - Sept 2024

- Organized several team bonding activities to strengthen collaboration.

CERTIFICATION AND AWARDS

Participant | Codefest Hackathon 16 Aug 2025

- Developed Cura, a decentralized health platform using Internet Computer (ICP), Fetch.ai agents, and React.

Second Place, Education and Equity Track | Garuda Hacks July 2025

- Won second place at Southeast Asia's largest on-site hackathon by developing EduArena, a gamified platform where students compete in 1v1 educational quiz battles.

Participant | Codefest Hackathon 15 June 2025

- Developed Shoppypybara, a blockchain-powered marketplace ensuring secure and transparent transactions.

Semifinalist | Makarapreneur Business Case Competition May 2025

- Analyzed a complex business scenario and presented a strategic solution.

Microsoft Certified: Azure AI Fundamentals | Microsoft Mar 2025

- Deepened my understanding of Azure's AI workloads, machine learning, NLP, and responsible AI.

Certificate of Completion, Backend Development | BNCC July 2024

- Completed an intensive training program covering backend technologies.

SKILLS

Soft Skills:	Collaboration, Communication, Critical Thinking, Time Management
Programming Languages:	Java, JavaScript, C#, C, Python, TypeScript, PHP
Web Development:	React.js, Next.js, Vue.js, ASP.NET, Laravel, Tailwind CSS
Databases and Platforms:	MySQL, PostgreSQL, Supabase, Firebase
Tools:	Git, Figma, Miro, Adobe Illustrator, Adobe Photoshop
